Taywise

The Taywise Project is a service for young women who have experienced violence and who are at serious risk of experiencing further violence.

We specifically target and work with young runaways, throwaways, drug users and young women involved in sexual exploitation.

How we can help

We offer vulnerable young women free and confidential support and information. We can be contacted by phone, email, letter or young people can just drop in and ask to speak with someone.

We are a small and friendly centre based in the centre of Dundee. We have a few paid workers but most of the work and support we provide is carried out by volunteers, so you can be sure that the people you meet in our office truly care about the work they are doing.

What we can offer

As well as offering confidential support, we also offer diversionary activities such as groups and sessions during drop in hours based around personal safety and abuse prevention. This diversionary work has the aim of helping young women to become empowered and to stop them from experiencing further abuse and violence.
